

## NEW—NISSAN 370Z 2009

### PRO-KIT—The First Step In Suspension Performance

**EIBACH PRO-KIT IS THE PERFECT ANSWER** for most frequently-driven street cars. It's our legendary spring system that dramatically improves both a vehicle's performance and appearance.

**PRO-KIT** lowers your 370Z center of gravity, reducing squat during acceleration, body roll in corners and excessive nose-dive under braking. When combined with Plus-1 or Plus-2 wheels and tires, the Eibach **PRO-KIT** is the finishing touch to a winning recipe for performance. **PRO-KIT** also reduces excessive fender-well clearance, making your car look just as hot as it performs.

Every Eibach **PRO-KIT** is designed and tested by our suspension engineers and performance driving professionals, to deliver aggressive good looks and high performance handling, without ever compromising safety or ride quality. By using our proprietary, progressive spring design, **PRO-KIT** provides the ultimate balance to take your passion for driving to a whole new level.

#### PRO-KIT

- High Performance Handling and Aggressive Good Looks
- Lower Center of Gravity – Lowers 370Z 0.9" Front and 0.8" Rear
- Stop Quicker, Corner Faster and get Better MPG
- Progressive Spring Design for Excellent Ride Quality
- Million Mile Warranty
