The First Step In Suspension Performance

Eibach **PRO-KIT** is the perfect answer for most frequently-driven street cars. It's our legendary spring system that dramatically improves both a vehicle's performance and appearance. **PRO-KIT** lowers your vehicle's center of gravity, reducing squat during acceleration, body roll in corners and excessive nose-dive under braking. **PRO-KIT** also reduces excessive fender-well clearance, making your car look just as hot as it performs. Every Eibach **PRO-KIT** is designed and tested by our suspension engineers and performance driving professionals, to deliver aggressive good looks and high performance handling, without ever compromising safety or ride quality. By using our proprietary, progressive spring design, **PRO-KIT** provides the ultimate balance to take your passion for driving to a whole new level.

PRO-KIT | Performance Springs

[Part Number Pricing and Data](#)

- Lower Center of Gravity
