NOTES: Read All Instructions Before Beginning Installation

- Only qualified mechanics experienced in the installation and removal of suspension components should perform this installation.
- Use of a hoist and screw jack is highly recommended and will substantially reduce installation time.
- Never work on or under a vehicle unless it is properly supported.

Installation of Eibach Adjustable Front End Links

Photo 1

Photo 2

1. Loosen and remove the hardware that secures the end link to the end of the OE anti roll bar and the control arm, then, remove the end link. (See Photos 1 & 2)

Photo 3

2. Adjust the Eibach end link to 145mm from center to center as shown. (See Photo 3)

Photo 6

Photo 7

3. Install and secure the end link to the control arm using the provided hardware as shown. **(See Photos 4, 5, 6 & 7)**

Photo 8

4. Secure the lower end of the link to the end of the bar as shown. **(See Photo 8)**
5. Make sure the ends are properly orientated, then tighten the jam nuts.
6. Repeat this procedure on the opposite side.
7. Double check to make sure everything is properly positioned and tightened, then, road test the vehicle.
8. After road testing, double check all hardware to make sure everything is properly tightened and re-tighten if necessary.
