NOTES: Read All Instructions Before Beginning Installation

- Only qualified mechanics experienced in the installation and removal of suspension components should perform this installation.
- Use of a hoist and screw jack is highly recommended and will substantially reduce installation time.
- · Never work on or under a vehicle unless it is properly supported.

FACTORY REAR BAR REMOVAL

 Begin by raising the vehicle and supporting it with the proper safety equipment. Note: Never work on or under a vehicle that is not supported by the proper safety equipment.

Photo 1

 Loosen and remove the hardware that secures the end links to ends of the OE anti roll bar as shown. (See Photo 1)
