

FOR IMMEDIATE RELEASE:
NEW—1967-1970 FORD MUSTANG—CORRECTION
ANTI-ROLL-KIT Performance Sway Bars

For the ultimate in tunable suspension performance.

Complete your suspension upgrade with an Eibach **ANTI-ROLL-KIT**. While our **PRO-KIT** performance springs are regarded as the primary suspension enhancement components, the Eibach **ANTI-ROLL-KIT** allows critical fine-tuning of your Mustang's handling characteristics.

Our **ANTI-ROLL-KIT** reduce body roll through increased design stiffness over stock bars. The result: increased handling and cornering grip in any performance-driving situation.

Manufactured from cold-formed, high-strength aircraft-grade steel for precision performance, and finished with a long-lasting powder coat finish, the **ANTI-ROLL-KIT** comes complete with all necessary mounting hardware and instructions for easy bolt-on installation.
