	Information Kit	EPAK	1
	Instructions	3878.140INST	1
	Rear Bump Stop	BS770062	2

NOTES: Read All Instructions Before Beginning Installation

- Installation of a **PRO-KIT** Spring set should only be performed by a qualified mechanic experienced in the installation and removal of suspension springs.
- Use of a hoist is highly recommended and will substantially reduce installation time.
- **Never work on or under a vehicle unless it is properly supported by safety stands and wheels are blocked.**
- **PRO-KIT** Springs are marked with 01 and 02 (located at the end of the part number) designating front and rear spring respectively.
- **PRO-KIT** Springs should be installed with the Eibach Logo right side up. All original stock spring isolators, dampers and tubing should be retained from the stock springs and used when installing the **PRO-KIT** Springs.
- **After** installation, it is always important to inspect and adjust the following if necessary:
 - Wheel alignment such as camber, caster & toe
 - Tire and/or wheel fender clearance
 - Brake line clearance and attachments
 - Brake anti-locking and anti-skid system sensors
- **Tire Rotation:** In order to increase the life of your tires, it is recommended to rotate your tires every 3,000 miles.

ALIGNMENT:

After installation, it will be necessary to perform a full vehicle alignment.

Bump Stop Instructions

FRONT: No front bump stop modifications required.

REAR: Replace factory rear bump stop with the new Eibach Springs bump stop, part number BS770062, supplied in this kit.

Rear Damper Notice

If your car CTS is equipped with the rear self leveling damper (OE part number 25736681) you will need to replace it with a non self leveling rear damper (OE part number 25736678). If the self leveling rear dampers are not replaced, the rear will not lower.
